1. Introduction

Blessed Edward Bamber Catholic Academy Trust (BEBCMAT) collects, holds and processes personal data about pupils, staff, parents/carers, governors, visitors and other individuals who have contact with the BEBCMAT. It therefore has a number of legal obligations under the General Data Protection Regulation (GDPR) and the provisions of the Data Protection Act 2018 (DPA 2018), as well as the Data (Use and Access) Act 2025.

Within this policy we will set out how we seek to protect personal data and ensure that employees understand the rules governing their use of personal data to which they have access to in the course of their employment. This policy applies to all personal data, regardless of whether it is held in paper or electronic format.

BEBCMAT is a registered data controller with the Information Commissioner and will continue to abide by the new registration arrangements. All members of staff have responsibility for how BEBCMAT collects, holds and processes personal data. The policy therefore applies to all staff as well as external organisations or individuals processing data on behalf of BEBCMAT. Staff who do not comply with this policy may face disciplinary action.

This policy also commits that BEBCMAT will also comply with regulation 5 of the Education (Pupil Information) (England) Regulations 2005, the Protection of Freedoms Act 2012 when referring to use of biometric data and Article 8 of the Human Rights Act 1998.

2. Definitions

The GDPR applies to 'personal data' meaning any information relating to an identifiable person who can be directly or indirectly identified in particular by reference to an identifier. This definition provides for a wide range of personal identifiers to constitute personal data, including name, identification number, location data or online identifier, reflecting changes in technology and the way organisations collect information about people.

The GDPR refers to sensitive personal data as 'special categories of personal data'. Special category data is personal data which the GDPR says is more sensitive, and so needs more protection. For example, information about an individual's race, ethnic origin, politics, religion, trade union membership, genetics, biometrics, health, sex life or sexual orientation, are all 'special categories of personal data'.

The GDPR applies to 'controllers' and 'processors'. BEBCMAT is a data controller who determines the purposes and means of processing personal data. A processor is responsible for processing personal data on behalf of BEBCMAT.

3. Data Protection Principles

Under Article 5(1) of the GDPR, the data protection principles set out the main responsibilities for organisations. It states personal data shall be:

- a) Processed lawfully, fairly and in a transparent manner in relation to individuals;
- b) Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;
- c) Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
- d) Accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;

- e) Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals; and
- f) Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.”

Article 5(2) requires that:

“the controller shall be responsible for, and be able to demonstrate, compliance with the principles.”

4. Lawful processing

The first principle requires that organisations process personal data in a lawful manner. BEBCMAT will only process personal data if it can meet one of the following lawful bases set out under Article 6(1):

- a) Consent: the individual has given clear consent for you to process their personal data for a specific purpose;
- b) Contract: the processing is necessary for a contract you have with the individual, or because they have asked you to take specific steps before entering into a contract;
- c) Legal obligation: the processing is necessary for you to comply with the law (not including contractual obligations);
- d) Vital interests: the processing is necessary to protect someone’s life;
- e) Public task: the processing is necessary for you to perform a task in the public interest or for your official functions, and the task or function has a clear basis in law;
- f) Legitimate interests: the processing is necessary for your legitimate interests or the legitimate interests of a third party unless there is a good reason to protect the individual’s personal data which overrides those legitimate interests.

In addition if BEBCMAT wishes to process ‘special category data’, it will identify an additional condition for processing as set out under Article 9(2).

5. Consent

Where a need exists to request and receive consent of an individual prior to the collection, use or disclosure of personal data, BEBCMAT is committed to seeking such consent. In all cases consent must be given by a clear affirmative act establishing a freely given, specific, informed and unambiguous indication of the data subject’s wishes. BEBCMAT is therefore committed to obtaining consent in the following manner:

- Consent is presented in a manner clearly distinguishable from other matters;
- The request is made in an intelligible and easily accessible form using plain language;
- Is freely given (i.e. not based on the need to conduct another processing activity);

- The date, method, validity and content of the consent is documented;
- A simple method is provided for the data subject to be able to withdraw consent at any time.

Once consent is withdrawn by the data subject, BEBCMAT will cease processing data for the specified purpose without undue delay.

If BEBCMAT wishes to offer Information Society Services (ISS) to pupils it will gain parental consent for any pupil below the age of 13.

6. Accountability and Governance

6.1 Data Protection Officer (DPO)

Under the GDPR it is mandatory for Local Authorities (as defined by the Freedom of Information Act (FOIA)) to designate a Data Protection Officer (DPO). The DPO's minimum tasks are defined in Article 39:

- To inform and advise the organisation and its employees about their obligations to comply with the GDPR and other data protection laws;
- To monitor compliance with the GDPR and other data protection laws, including managing internal data protection activities, advise on data protection impact assessments, train staff and conduct internal audits;
- To be the first point of contact for the Information Commissioner's Office. The contact details for BEBCMAT's designated DPO are as follows:

Data Protection Officer, Shard Business Services
dpo@shardbusinessservices.co.uk

Staff can contact the DPO if they have any queries about this policy, data protection law, data retention or the security of personal data. The DPO can also be contacted directly if members of staff have any concerns that this policy is not being adhered to.

6.2 Register of Processing Activities (RoPA)

BEBCMAT is required to maintain records of activities related to higher risk processing of personal data. BEBCMAT can confirm it maintains a Register of Processing Activities and this is held by BEBCMAT office in conjunction with the DPO. All members of staff are required to notify the relevant persons before they embark on any new processing activities so they can be adequately recorded on the RoPA.

6.3 Workforce Training

BEBCMAT is committed to providing data protection training to all staff as part of their induction process and will issue regular refresh training throughout the course of their employment or in the event of any changes in data protection law. BEBCMAT will retain a record of this training programme and this will be made available to the Information Commissioner's Office on request.

6.4 Data Protection Impact Assessments (DPIA's)

Data protection impact assessments (DPIAs) are a tool which can help BEBCMAT identify the most effective way to comply with their data protection obligations and meet individuals' expectations of privacy. An effective DPIA allows organisations to identify and fix problems at an early stage, reducing the associated costs

and damage to reputation which might otherwise occur.

BEBCMAT will complete a DPIA for certain listed types of processing, or any other processing that is likely to result in a high risk to individuals' interests. Therefore, staff must consult the relevant persons or DPO before they embark on any new processing that could be regarded as being high risk to an individuals' interests. If required the DPO will assist members of staff completing BEBCMAT's DPIA template.

6.5 Contracts

Whenever a controller uses a processor, it needs to have a written contract in place. This is important so that both parties understand their responsibilities and liabilities. BEBCMAT commits to including the following compulsory details in its contracts:

- The subject matter and duration of the processing;
- The nature and purpose of the processing;
- The type of personal data and categories of data subject; and
- The obligations and rights of the controller.

7. Individual Rights

7.1 Right to be informed

Individuals have the right to be informed about the collection and use of their personal data. This is a key transparency requirement under the GDPR. We call this 'privacy information' and BEBCMAT will issue privacy notices in relation to pupil data, workforce data and governor data. BEBCMAT will endeavour to issue these notices on induction and also make them available on BEBCMAT's website throughout the data subject's school life.

7.2 Right of Access (Subject Access Requests)

Individuals have the right to access their personal data (commonly known as subject access) and supplementary information about the processing of their data. The right of access allows individuals to be aware of and verify the lawfulness of the processing of their personal data. The information that can be requested includes:

- Confirmation that their personal data is being processed;
- Access to a copy of the data;
- The purposes of the data processing;
- The categories of personal data concerned;
- Who the data has been, or will be, shared with;
- How long the data will be stored for;
- The source of the data, if not the individual;
- Whether any automated decision-making is being applied to their data and what the significance and consequences of this might be for the individual.

'Subject access' requests can be submitted to the academy office, the Trust DPO, or the school Data Protection Lead and should contain the name of the data subject, a correspondence address and a description of the information requested.

The academy will provide the information without delay and at the latest within one month of receipt of the request. The academy will not apply a fee to requests unless the request is manifestly unfounded or excessive. The academy will take reasonable steps to verify the identification of the applicant and if the applicant wishes to request a review of the academy's decision, the process for doing so will be clearly outlined in the response issued.

For more detailed guidance on subject access requests, please see the school's Subject Access Request Procedure.

7.3 Individual rights

GDPR also empowers individuals with the right to rectification, erasure, right to restrict processing, data portability, right to object and rights in relation to automated decision making or profiling. BEBCMAT will carefully consider any requests under these rights and requests can be submitted to the academy office or the DPO.

8. Data Security

Principle f) states data should be processed in a manner that ensures appropriate security of the personal data. This means BEBCMAT must have appropriate security to prevent the personal data it holds being accidentally or deliberately compromised. Particular attention will be paid to the need for security of sensitive personal data.

Manual data will be stored where it is not accessible to anyone who does not have a legitimate reason to view or process that data. Staff should carefully consider whether they need to take any manual data offsite before doing so and record instances where any 'special categories of data' is taken offsite. The following measures must be taken by staff in relation to electronic data:

- Staff must follow the Acceptable Use policy of the trust
- Portable electronic devices, such as laptops, iPads and hard drives that contain personal data are stored in a locked cupboard or drawer;
- Encryption software is used to protect all portable devices and removable media that contain personal data, such as laptops and USB devices;
- Passwords must meet appropriate security standards, be changed at regular intervals and must not be divulged to any other persons;
- Multi-factor authentication should be used where available
- Where personal data is shared with a third party, staff should carry out due diligence and ensure the data is sent in a secure manner or appropriate measures are taken to mitigate the risk of individuals being identified;
- When sending personal data to a third party, staff must carefully check the recipient and their contact details;
- Where personal devices are used to access organisational email accounts, staff should ensure appropriate passwords are applied to the device;
- Staff should not open links when emails are received from unknown recipients or the emails appear suspicious;
- Personal data must be stored in a secure and safe manner, with careful consideration made to who can access the data.

9. Breach Reporting

The GDPR introduces a duty on all organisations to report certain types of personal data breach to the relevant supervisory authority. Where feasible, BEBCMAT must do this within 72 hours of becoming aware of the breach, it is therefore essential that **all members of staff make the relevant persons aware of any potential breaches of data protection without undue delay**. This includes all losses, thefts or inadvertent disclosures of personal data. It also includes the loss or theft of any device that holds personal data.

The relevant persons will then follow the breach procedure in conjunction with the DPO. An investigation will be conducted to confirm whether or not a personal data breach has occurred. If a breach has occurred the

DPO will advise BEBCMAT on whether it is required to notify the Information Commissioner and the data subjects affected.

For more detailed guidance on data breaches, please see the school's Data Breach Procedure.

10.Data Retention

Principle e) states data must be kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed. Data will only be retained for the specified period outlined in the records management schedule that BEBCMAT has adopted and will be destroyed in a secure manner thereafter. A copy of the records management schedule is available on request from the academy office.

11.Data Accuracy and Limitation

Principle (d) states data shall be accurate and, where necessary, kept up to date. BEBCMAT will issue regular reminders to staff and parents/carers to ensure that personal data held is up to date and accurate. Any inaccuracies discovered will be rectified and if the inaccurate information has been disclosed to a third party the recipients will be informed of the corrected data.

BEBCMAT will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals in BEBCMAT's privacy notices. If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary. Staff must only process personal data where it is necessary to do so in their jobs.

12.Information requests

Parents, or those with parental responsibility, have a legal right to free access to their child's educational record (which includes most information about a pupil) within 15 school days of receipt of a written request. However, this right only applies to local authority schools and special schools. If a request is received under the education regulations, BEBCMAT will adhere under 'subject access' guidance as outlined in Section 7.2 of this policy.

Personal data will only be disclosed to third party organisations or individuals for whom consent has been given to receive the data, or organisations that have a legal right to receive the data without consent being given e.g. examination boards.

Requests for personal data by the Police or other bodies with law enforcement powers (e.g. HMRC), will usually only be considered when accompanied by an appropriate data protection. This form typically contains details of the applicant, the purpose of the request and the section of the legislation the information is being requested under. This will allow the DPO to make an informed decision as to whether the request is proportionate for the purpose requested, against the rights of the data subject

If requests are received from parents/carers for the names of pupils in their class (e.g. for Christmas card or birthday invites), only first names will usually be released, however BEBCMAT reserves the right to refuse any request in its entirety.

13.CCTV and biometric data

BEBCMAT uses CCTV in various locations around the academy sites; as such it adheres to the ICO's code of practice for the use of CCTV. We do not need to ask individuals' permission, but cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use. Any enquiries about the CCTV system or requests for footage should be directed to the academy office. Please see the trust's CCTV policy for more detailed guidance.

Where we use pupils' biometric data as part of an automated biometric recognition system, we will comply with the requirements of the Protection of Freedoms Act 2012.

Parents/carers will be notified before any biometric recognition system is put in place or before their child first takes part in it. BEBCMAT will get written consent from at least one parent or carer before we take any biometric data from their child and first process it. Parents/carers and pupils have the right to choose not to use BEBCMAT's biometric system(s) and we will provide alternative means of accessing the relevant services for those pupils. Parents/carers and pupils can object to participation in BEBCMAT's biometric recognition system(s), or withdraw consent, at any time, and we will ensure that any relevant data already captured is deleted.

Where staff members or other adults use BEBCMAT's biometric system(s), we will also obtain their consent before they first take part in it and provide alternative means of accessing the relevant service they should object. Staff and other adults can also withdraw consent at any time, and BEBCMAT will delete any relevant data.

14.Complaints

Data subjects have the right to make a complaint to the trust if they are unhappy with our compliance with data protection legislation. Any complaints regarding data protection can be directed towards our DPO (dpo@shardbusinessservices.co.uk)

We will acknowledge any complaint within 30 days of receiving this and take appropriate steps to address the complaint. We will inform you of the progress of your complaint and provide details regarding the outcome.
