1. Statement of Principles

The policy outlines the commitment of the staff, pupils and governors of St Joseph's Catholic Primary School to ensure that equality of opportunity is available to all members of the school community. For our school, this means not simply treating everybody the same, but understanding and tackling the different barriers which could lead to unequal outcomes for different groups of pupils in school, whilst celebrating and valuing the equal opportunity achievements and strengths of all members of the school community. These include:

- Pupils
- Staff
- Parents/carers
- The governing body
- Multi-agency staff linked to the school
- Visitors to school
- Students on placement

We believe that equality at our school should permeate all aspects of school life and is the responsibility of every member of the school and wider community. Every member of the school community should feel safe, secure, valued and of equal worth. At St Joseph's Catholic Primary School, equality is a key principle for treating all people fairly and creating a society in which everyone has the opportunity to fulfil their potential - irrespective of their gender, ethnicity,

disability, religious beliefs, sexual orientation, age or any other recognised area of discrimination.

All pupils are encouraged to greet visitors to the school with friendliness and respect. The displays around the school are of a high quality and reflect diversity across all aspects of equality of opportunity and are frequently monitored. Provision is made to cater for the spiritual needs of all the children through planning of prayer and worship, through the delivery of the Religious Education scheme of work, planning of assemblies and opportunities for prayer and liturgy.

4. Policy Development

This policy applies to the whole school community. It has been drawn up as a result of the outcomes of a transparent process and through consultation with staff, pupils, parents and governors. A working group from the school has gathered up existing information relating to the school community in relation to equality and examined the data.

5. Monitoring and Review

St Joseph's Catholic Primary School is an inclusive school, working towards greater equality in the whole school community. We use the curriculum and teaching to enhance the self-esteem of all those it serves and to provide learning environment in which each individual is encouraged to fulfil her or his potential.

We collect and analyse a range of equality information for our pupils these include:

- Attainment data
- Attendance data
- Exclusions
- Involvement with extended learning opportunities / extra-curricular activities
- Complaints of bullying or harassment
- Parents surveys
- Staff and governor profiles

We ensure that these are analysed by ethnicity, disability, gender, free school meals (FSM), English as an additional Language (EAL). This analysis then forms part of the action plan.

We make regular assessments of pupils' learning and use this information to track pupils' progress, as they move through the school. As part of this process, we regularly monitor the performance of different groups, to ensure that all groups of pupils are making the best possible progress. We use this information to adjust future teaching and learning plans, as necessary.

Resources are available to support groups of pupils where the information suggests that progress is not as good as it should be. The governing body receives regular updates on pupil performance information. School performance information is compared to national data and local authority data, to ensure that pupils are making appropriate progress when compared to all schools, and to schools in similar circumstances.

As well as monitoring pupil performance information, we also regularly monitor a range of other information. This relates to:

- Attendance
- Exclusions and truancy
- Racism, disability, prejudice sexism, homophobia and all forms of bullying
- Parental involvement
- Participation in Extended Learning Opportunities

Our monitoring activities enable us to identify any differences in pupil performance and provide specific support as required, including pastoral support. This allows us to take appropriate action to meet the needs of specific groups in order to make necessary improvements.

St Joseph's Catholic Primary School is also committed to providing a working environment free from discrimination, bullying, harassment and victimisation.

We aim to recruit an appropriately qualified workforce and establish a governing body that is representative of all sections of the community in order to respect and respond to the diverse needs of our population.

The Employment Duty within the legislation states all schools should collect information on staff in post, and applicants for employment, training and promotion. The information for St Joseph's is updated annually and recorded on the school workforce census.

We collect and analyse a range of profile information for our staff and governors:

- Applicants for employment
- Attendance at training events
- Disciplinary and grievance cases
- Staff appraisal/performance management

Confidentiality is always maintained in all cases.

We have identified the following issues from the analysis of the data:

- To develop children's understanding of different cultures and lifestyles within the local area, wider community and world.
- To develop children's understanding of different religions and beliefs. To provide opportunities for the children to be exposed to positive male role models.
- To complete a full analysis of disability within the school and consider the specific needs of those children, staff and parents with a disability.
- To implement the attendance policy, including letters home for poor attenders.

Due regard is given to the promotion of equality in the School Improvement Plan. The persons responsible for the monitoring and evaluation are the Headteacher and the Bursar.

Their role is to:

- Lead discussions, organise training, update staff in staff meetings, support discussions
- Work with the governing body on matters relating to equality
- Support evaluation activities that moderate the impact and success of this policy

Note:

Under the Equality Act 2010, in very limited circumstances, an employer can claim that a certain religious denomination or belief is considered to be a genuine occupational requirement of that role. An aided school may be able to rely on this for some roles in school, particularly those roles that provide spiritual leadership. However, this would not apply for all staff in School.

In addition, there are also instances in which a job will qualify for a genuine occupational requirement on the grounds of gender. However, only in very few instances would this be permissible, for example, where the job is likely to involve physical contact with members of the opposite sex, where matters of decency or privacy are involved.

We will work with parents/carers to help all pupils to achieve their potential.

action plan will be published to enable an impact assessment to be undertaken at the appropriate time within a given timescale.

This policy will be published on the school website. It is also available in paper copy upon request for any interested stakeholders.

11. Annual Review of Progress

St Joseph's Catholic Primary School reports annually on our progress and performance in respect of this policy covering ethnicity, disability and gender and we report annually on our progress to improve access for disabled pupils, including access to the curriculum, physical access and access to information. Taking this single equality approach, we will incorporate all requirements into one annual report which meets the requirements of the legislation and this will formulate the basis for the annual action plan.

12. Equality Impact Analysis

Undertaking equality impact analysis (EIAs) is similar to undertaking health and safety risk assessments. It involves predicting and assessing what the implications of a policy, function or strategy will be on a wide range of people.

EIAs are a way in which we can analyse all of our work (this could be a policy, procedure, project, strategy or service) to ensure it meets the needs of all our service users and that no group (in relation to ethnicity, disability, gender, age, religion and belief, and sexual orientation) is disadvantaged or cannot access our services.
